Men's Day at the Cathedral.

It is generally conceded that the success of a parish is measured by the fervor of the men of the congregation. Women are innately religious, but when a church counts its men communicants in equally large numbers as the women, and when its societies of men fourlish to the degree achieved by the corganizations of women. It is entitled to be called successful. The while the callous priests in charge of the cathedral parish have been working to secure the funds to build a church worthy of the service of God, they have not forgotten the spiritual needs of the people. As the parish kas grown financially, it has prospered along lines of devotion.

This fact was irrefutably shown last Sunday, which was set aside as "Men's Day" in the parish. The Holy Name society, an organization scarcely two pears old, had a reception of new members during the day and a banquet in the evening, at which 500 men were served.
